Enhanced
Decision-
Making

Be CSRD
compliant

Comply with the EU's Corporate Sustainability Reporting Directive (CSRD) with the help of Onventis Analytics.

Integrate
Carbon
Metrics

Seamlessly integrate carbon metrics into your spend data, accurately measure and report Scope 3 emissions.

Identify
Emission
Hotspots

Analyze emissions by categories, suppliers, and subsidiaries to uncover primary carbon contributors.

Transparent and
Flexible Methods
with AI Support

Utilize our AI to select the most suitable emission factors, with the ability to tailor and enhance mappings

Reliable Insights
for Confident
Reporting

Gain access to accredited emission factors and transparent calculations that can be used for GHG Reporting.
